2015 MEDTRADE PRODUCT GUIDE

PRODUCTS AND SERVICES are what make—or break—your business. You want to provide your customers what they need while also drawing in profits and building your reputation as a business that is there to help. And Medtrade is the place to start that process. With so many distributors and manufacturers under one roof, you have the perfect opportunity to educate yourself and choose from an array of options. Flip through our product guide, and be sure to visit these companies' booths to learn more about the ways you can benefit from each other. (And don't miss our handy checklist on the next page!)

Board of Certification/ Accreditation (BOC)

BECOME A CERTIFIED DME SPECIALIST (CDME) AT MEDTRADE!

The CDME certification (bocusa.org/cdme) demonstrates a broad understanding of the durable medical equipment (DME) industry, including the intake process, product selection, dispensing and setup, documentation, billing, compliance and performance management.

The MED Group is hosting a one-day CDME workshop at Medtrade, and BOC will administer the CDME paper exam two days later at the same location.

BECOME A CDME IN TWO SIMPLE STEPS!

1. Attend the CDME Workshop and Exam Prep Course on October 26, 10 a.m. to 4 p.m.

Register for the workshop at medtrade.com. The \$399 registration fee includes full admission to the conference. Enter code BOCMT15 for a \$50 discount!

2. Take the CDME exam on October 28, 8 to 10 a.m.

Sign up for the CDME examination on MyBOC, my.bocusa.org, and select "Medtrade 10/28/15 (Paper Exam) DME Specialist." The exam is \$100 for workshop participants (normally \$150).

The prerequisites are a high school diploma and 500 hours of DME experience.

Contact BOC at cert@bocusa.org or (877) 776.2200 with questions.

Brightree

Cloud-Based Billing

BRIGHTREE IS THE LEADING PROVIDER OF CLOUD-BASED BILLING, business management and clinical software for the post-acute care industry. The company serves more than 3,000 organizations, and our solutions and outsourced services enable home medical equipment (HME/DME) providers, O&P providers, hospice organizations and home health agencies to improve how they manage their operations, serve patients and protect reimbursements.

With the most comprehensive solution and ecosystem in the industry, you have everything you need to efficiently run your business, improve profitability and automate every aspect of your business operation. Brightree provides a single platform for building operational, financial and clinical excellence; a team of specialists committed to your success; and technology to help providers, payers and patients smoothly exchange data, documents and transactions to improve business performance and patient outcomes.

From patient intake to collection, Brightree's integrated platform increases efficiency, streamlines business operations, improves patient outcomes and helps you stay in compliance.

CAIRE Inc.

SeQual Eclipse 5

CAIRE INC. IS THE GLOBAL OXYGEN MARKET

LEADER of AirSep and SeQual portable oxygen concentrators, AirSep and CAIRE stationary oxygen concentrators and CAIRE liquid oxygen systems. The robust and reliable Eclipse 5 portable oxygen concentrator is designed for 24/7 use and functions fully on DC power at its max continuous and pulse flow settings. The Eclipse 5 weighs only 18.4 lbs (8.3 kg) with battery installed. With continuous flow options 0.5-3.0 LPM and pulse settings up to 192mL, the Eclipse 5 offers the highest pulse dose output of any POC. The unique design of the AirSep VisionAire, available in 2, 3 and 5 L models, eliminates costly preventive maintenance schedules. This helps to ensure the potential of the equipment inventory is maximized while greatly reducing or eliminating any unnecessary downtime. The technology of these filter-free units offers AirSep's time-proven expertise in a smaller cabinet that will please patients and their physicians and meet any business requirements.

Dr. Comfort

Rejuva Fashion Compression Line

THERAPEUTIC SHOES DON'T HAVE TO LOOK THERAPEUTIC.

This is the belief that drove the founders of Dr. Comfort to reinvent the category in 2002—and to become the worldwide leading manufacturer of diabetic footwear in the years since. The company's product offering has expanded to include prescription and non-prescription inserts, diabetic socks, slippers, sandals and compression wear that help enable and inspire people with a full range of therapeutic needs to be more active. Earlier this year, Dr. Comfort launched their new Rejuva fashion compression line in a variety of stylish patterns, including argyle, herringbone and sheer dot. Visit Booth #1545 to see Dr. Comfort's newest additions to their diabetic shoe and fashion compression lines.

If you would like to learn more about Dr. Comfort, a DJO Global company, visit drcomfort.com, or call (800) 556-5572.

Golden Technologies Inc.

Lift Chairs

GOLDEN TECHNOLOGIES IS PROUD TO BE A TRUE AMERICAN MANUFACTURER OF LIFT CHAIRS.

Our headquarters in Old Forge, Pennsylvania, is the largest facility in the world dedicated solely to the manufacturing of lift chairs. Our other product lines—mobility scooters and power wheelchairs—are assembled in our Mobility Operations facility located in Kingston, Pennsylvania, all by Golden Technologies' employees.

We are proud to provide jobs for more than 400 Americans, contributing to the strength of the economy. The history of Golden Technologies is a story that defines the American dream. Founded in 1985 by Robert Golden, Sr., and Fred Kiwak, Golden Technologies pledges to “build it right the first time,” a motto that still holds true today. In fact, that promise is proudly displayed on a banner hanging above our lift chair manufacturing floor, reminding our employees every day of the commitment that we have to our customers.

As a family-owned, family-operated company, Golden Technologies is committed to manufacturing the highest quality products in the durable medical equipment industry.

McKesson Medical-Surgical

Complimentary Retail Support

SET YOUR BUSINESS APART WITH MCKESSON RETAIL SUPPORT

In a time of looming reimbursement cuts, it's important to differentiate your business in the HME marketplace. That's why McKesson Medical-Surgical is pleased to offer our complimentary retail support. Help set your business apart by using our merchandising tools, educational literature and even product samples to promote the quality and cost savings of our incontinence care portfolio.

Support options include:

- Product samples: single pack samples for customers to try out products, available in all sizes of McKesson Brands briefs and underwear
- Merchandising tools: planograms for optimized product display; shelf talkers to bring more attention to the McKesson Brands portfolio; posters to help you advertise and showcase the product assortment
- Educational literature: product catalogs that include product details, cross references and more; sell sheets that can be customized with the name of your business, phone number and pricing

Visit mckessoninco.com to try these complimentary tools today.

National Ramp

Modular Ramps

NATIONAL RAMP IS AN INDUSTRY LEADER in modular ramps. With five unique ramp choices, National Ramp dealers can offer a ramp for every need, every budget and every taste. National Ramp systems feature one of the safest walking surfaces on the market and are an affordable choice for accessibility solutions. Permanent or temporary ramp systems are now available in multiple color choices including Silver, Forest Green and Tuxedo Black, which allow your customers to complement their homes' exterior colors as opposed to the limits of only one color choice. And National Ramp systems can be installed in only a few hours!

- Aluminum ramps are the lightest ramps available and are the easiest to maintain. National Ramp offers a lifetime guarantee on all aluminum ramps.
- Steel ramps are powder-coated for extra durability with a textured walking surface for a greater slip resistance. National Ramp provides a three-year warranty on steel ramps.
- Wooden ramps are a great lower cost alternative and provide years of freedom for your clients. The all-natural wood ramps add warmth to any home.

O2 Concepts

POCs

SEE WHAT SMART POCs CAN DO FOR YOUR OXYGEN BUSINESS. Oxygen has officially evolved. O2 Concepts has reimagined non-delivery, stepping forward as the first manufacturer to create a smart POC integrated over the Verizon Network that benefits dealers and patients alike.

DNA Technology (Dynamic Network Analysis) allows oxygen providers to monitor all devices remotely for location, usage and performance, as well as troubleshoot to prevent any unnecessary dispatches. DNA Technology serves as an additional upgrade to the Oxlife Independence, a device that has already received praise as the most reliable POC on the market, which comes equipped with a standard 5-year warranty.

Web portals, mobile applications and automated custom alerts allow drivers and therapists to monitor equipment usage and data such as oxygen flow, purity, device hours and more in real time.

Visit Booth #811 for live demonstrations, which will showcase the full spectrum of DNA Technology and its capabilities.

Your smart fleet awaits.

TeamDME!

Delivery Software

YOUR DRIVERS WILL LOVE OUR DELIVERY SOFTWARE

because it eliminates the hassles associated with keeping up with paperwork, endless phone calls and wasted time making trips back to get paperwork or serial numbers. Our delivery driver software ensures your drivers always have accurate information, even without a network connection.

WORK OFFLINE & PROVIDE REAL-TIME DATA

Your business can't afford to stop just because the cellular network in certain areas is unreliable. Our delivery software stores all necessary customer, shipment and location data so your drivers can work offline when reception is poor. This ensures drivers always have access to the information they need in order to do their jobs quickly and effectively.

SIGNATURE CAPTURE, PHOTOS & BARCODES

A picture is worth 1,000 words. With our delivery software, drivers can take pictures and collect signatures at pickup and delivery. Our software also fully supports barcode scanning, so drivers don't have to key them in.

WHILL

Model A

WHILL MODEL A IS A NEXT-GENERATION personal mobility device for everyone. Our aim is to eliminate the stigma attached to assistive technology such as mobility scooters and wheelchairs through advanced technology and smart design.

Its compact size and incredible maneuverability, combined with great terrain coverage and powerful 4-wheel drive, make it an ideal device for indoors and outdoors.

Its 4WD capabilities and large front wheels allow it to clear obstacles of up to 3 inches high. A full battery charge gives it a range of up to 12 miles. WHILL's maximum speed is 5.5 mph and it has a 10-degree incline capability. Its slim and compact design, in combination with the all-directional front wheels, help it maneuver around tight spaces.

WHILL is accompanied by an iPhone app which connects via Bluetooth and allows for remote control of the device. The app also allows you to adjust the seat, driving and control settings, and even includes a security locking mechanism to keep the device secure when you're not using it.
